HORSE SUPPLEMENT LINE

DERBY  
EQUINE NUTRITION

## DERBY QUERATIN

### **Hoof and Coat Improver Supplement**

It is a supplement specially formulated nutrients to improve skin and coat condition and promote healthy hoof growth. Suitable for all types of horses, particularly for show and sale preparation, or those recovering from laminitis, dry hoof, hoof cracks and in cases of excessive exposure of the hooves to humidity. Excellent supplement to obtain a soft, shiny mantle, mane and tail.

## DERBY EXTRA CALCIO

### **Bone & Hoof Supplement with Biotin**

Due to its unique formula, it provides the necessary calcium in the equine diet to ensure strong and a healthy bone structure and hooves. It is indicated especially for horses whose diets are high in grains. It is an excellent preventive treatment of bone disorders, weak hoof and hoof cracks and when the pastures are reduced in available calcium.

## DERBY OSTEOPERFECT

### **Bone density and quality improver supplement**

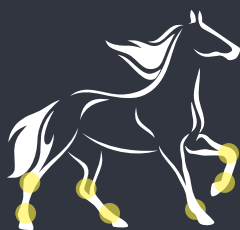

This supplement is an excellent complement to achieve good bone density and quality in the horse. It is suitable for horses in sports activity of all kind of disciplines, both young and adults. It provides proteins, vitamins and minerals to ensure the development of strong bones. It also prevents bone demineralization that can occur during rest periods.

## DERBY ARTICULAR

### **Oral glucosamine hcl and chondroitin sulfate supplement**

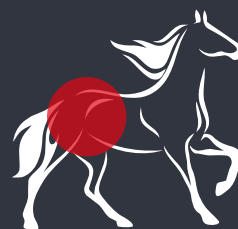

Supplement specially formulated to provide broad support for joint health in horses. It is indicated to minimize joint problems in horses subjected to all types of exercise. Glucosamine acts as a precursor of healthy articular cartilage constituents and neutralizes some substances produced during joint injuries. Chondroitin Sulfate also provides what is necessary to ensure optimum quality of the synovial fluid and give proper joint lubrication.

## DERBY ANTIOXI PLUS

### **Antioxidant supplement for horses**

It is a nutritional supplement specially formulated for muscle recovery in horses. It provides antioxidant protection, improves the immune system and prevents tying-up due to its combination of Vitamin E, Organic Selenium, Vitamin C and Magnesium. It allows to accelerate the muscular recovery in horses after the work and to optimize the time between performances. In horses with tying up or with muscular injuries, it favors the rehabilitation. It also acts as a supplement for horses with nutritional deficiency of Selenium.

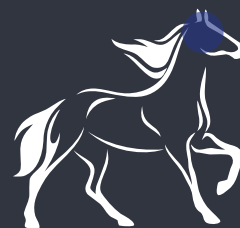

## DERBY CALM

### **Thiamine supplement for nervous performance horse**

Specially formulated supplement based on high quality thiamine. Thiamine plays an important role in carbohydrate metabolism and nerve transmission, reducing nervous behavior in performance horses.

Indications: Indicated for nervous horses on high grain diets and in heavy training. Also indicated to treat symptoms of thiamine deficiency.

## DERBY BLOCK

### **Mineral supplement**

Micro minerals are essential for the correct functioning of animal metabolism. Derby block is specially formulated to supply all the necessary minerals to balance a pasture or hay only diet. The animal consumes it by licking and it can be administered on all types of horses, at any time of the year or throughout the year.
